

Bug Color Matching

1. Print and cut out the bug cards and leaf cards.
2. Match each bug to the leaf that is the same color.
3. Name the colors as you match them.

Other Ideas:

- Turn it into a listening activity. “Can you put the orange ladybug on the purple leaf?”
- Print two sets of cards and use them to play Memory.
- Write capital and lowercase letters on the bugs and leaves to practice matching letters.
- Write numerals on the bugs and the equivalent dots on the leaves to practice counting and matching numbers.
