

Hello Adventurer!

In this word search puzzle, you'll find 11 words hidden in a 12-by-12 grid. The words can go → right, ↓ down, ↘ diagonally down-right, ← left, or ↑ up.

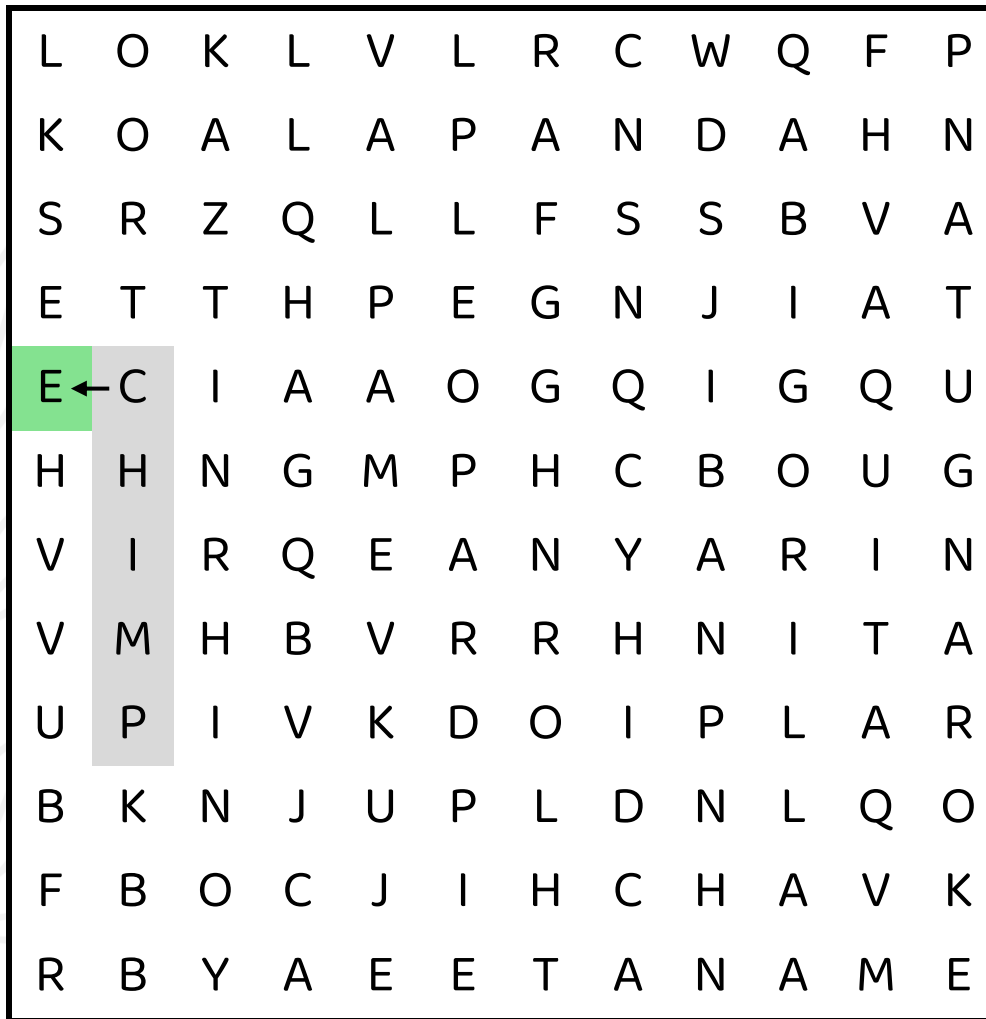

There's also a **secret word** waiting to be revealed. Some words in the list have a number next to them. Find each word in the puzzle, then take the letter from the first column of that row and place it in the matching numbered blank for the secret word. For *Chimp*, I've already put the letter E from the first column into the eighth spot of the secret word.

Good luck finding all the words!

49. Endangered Animals

Can you find all the words in the puzzle?

Word List:
